

FISCAL NOTE

SB 786 – HB 2122

February 15, 2007

SUMMARY OF BILL: Requires an applicant for a mechanical plumbing license to have three years of plumbing experience or an engineering degree in plumbing or in a mechanical field. Current law does not contain a specific experience or education requirement.

ESTIMATED FISCAL IMPACT:

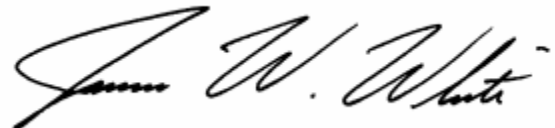

Decrease State Revenues – Not Significant
State Expenditures – Net Impact – Not Significant

Assumptions:

- Some persons who are qualified to receive a license under current law will not be able to receive a license under the provisions of this bill.
- A decrease in state revenues as a result of fewer licensees paying fees.
- Any decrease in state expenditures as a result of licensing fewer persons will be offset by any increase in state expenditures to verify the new licensing requirements.

CERTIFICATION:

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

A handwritten signature in black ink, appearing to read "James W. White".
